FOR CONGRESS,

HON. JOHN G. ROGERS, of Howard county.

For the unexpired term in the FIFTY-THIRD CONGRESS,

DR. GEORGE WELLS,

of Anne Arundel county.

SEIZE THE OPPORTUNITY. If there ever was a time when Demo crats needed to be on the alert' that time is now. A good many Republicans have been talking very hopefully of late and the cause of it has leaked out. They have money and there is no doubt it has been judiciously placed. With the Democrats it has been a "campaign of education." They have depended al most solely upon laying bare the hollow pretensions of the Republican party and to pointing to the signs of coming prosperity under Democratic legislation.

Republican monopolists are still rich and are still willing to pour out at least a part of their wealth that laws for their benefit may be re-enacted. With them it is "business," and it is natural that they should throw large amounts of money into the present congressional struggle. This should cause every Democrat to buckle on his armor and resist this new effort on the part of the Republicans to restore old iniquities. The Republican dragon has been crippled and for the time being has been rendered helpless, but its latent power is money. Those whom it could not scare into submission by the calamity howl it has "persuaded" with emoluments of one kind or other and it is still a dangerous enemy.

A few more years of McKinley and Tom Reed rule and we would have an oligarchy--a nation of persons immensely rich and helplessly dependant. Now is the opportunity and now is the time when every Democrat should use his best efforts to stem back the mad purposes of those who are leading the Republicans. The country is on the highway to prosperity. It would be madness to turn back and it is madness to think of staying away from the polls on Tuesday next. Rogers and Wells are representative men-men who will represent the party to the best of their ability and will not be found wanting when the principles of the party are at stake.

Everywhere throughout the country the Republicans are going into the fight as a forlorn hope and they are determined to undermine Democratic influence in the Fifty-fourth Congress if they can

The buying power of a dollar already where prices are fixed. is fully twenty per cent. better than it was three months ago, and that's just what the farmer, be he Democrat or Republican, has been looking for. Products that come from the soil constitute the true wealth of this country. When they are low everything else ought to be low. The farmer expects it, yea, he can demand it if he will intelligently use the ballot. Let the farming interest loom up and manufacturing will follow. Mc Kinleyism has made high prices for the farmer and reduced the price of his pro ducts. Democratic congresses will reverse this. The Democracy has always been in favor of equal rights, a fair shake and no gouging.

We conjure all Democrats not to forget their opportunity on Tucsday next. Apathy means a blight, a surrender, and a letting go of that which we have and can improve.

We have cheering news from all parts of the Fifth Congressional district. The Democratic meetings have been well at tended and the old time earnestness has come back to the party. The Democrats are going to make a determined fight. They are expecting Howard county to do her duty, and Mr. Rogers has told them she will. Let us verify his words.

Henry Wilson, the postmaster at Welshton, Florida, says he cured a case of diarrhea of long standing in six hours, with one small bottle of Chamberlain's Colic, Cholera and Diarrhoa Remedy. What a pleasant surprise that must have been to the sufferer. Such cures are not unusual with this remedy. In many instances only one or two doses are required to give permanent relief. It can always be depended upon. When reduced with water it is pleasant to take.

THE MCKINLEY BILL.

There is not a section or a line in the whole McKinley Bill that will open a market for another bushel of wheat or another barrel of pork.-Jas. G. Blaine, July 11th, 1894, of Con- quit singing second to the McKinley calgressional Record, January 15, amity tune:

A SHORT CATECHISM. If the price of farm products and the wage rates cannot be raised what is the next best thing to do? Let the cost of living be reduced.

How is this to be done? By Democratic policy. The McKinley bill kept up the price of living. Under it trusts flourished, a class became enormously prosperous to the hurt of the great majority, and our commerce fell to half what it ought to be, the great consuming class more and more grew less able to buy and stagnation, poverty, distress and labor strikes ensued to an

What ought the people do Tuesday

Vote the Democratic ticket as the only known way out of the difficulty.

How ought the farmer to vote? The Democratic ticket.

Because his business is the source of all wealth. In selling his products he is compelled to compete with the world and under the McKinley bill was com pelied to purchase protected goods. It is estimated that on every thousand dollars worth of goods he paid a clear tax

The Democrats of the Sixth Congressional district are making a gallant fight under the leadership of Mr. Ferdinand Williams. He has spoken in Republican strongholds with excellent effect and there is believed to be a strong conviction among the people that most any law would be better than the McKinley law, now, especially, since so many manufactories have started up throughout the country. Leading Democrats are of the opinion that Mr. Williams will carry his district.

For a Democrat to stay at home and not go to the polls Tuesday is a concession that the Republicans are right. They are no more right now than they were in 1862 when the country was fired with the resolve that Republican policy had been weighed in a balance and found wanting. "Improve the present, the past is forever gone and the future may

Senator Hill Talks to Farmers. In speaking to an assemblage largely

composed of farmers at Mount Morris. New York, on Thursday, of last week Senator Hill said :

You believe that a tariff should be im posed for public purposes, and not to aid one man's business at the expense of another. You were not fooled by the provision of the McKinley bill wherein an increased duty was placed upon wheat for the avowed and ostensible purpose of affording your wheat some pro tection, when, in truth and in fact, it was of no benefit whatever, because there are not 1000 bushels of wheat imported into this country from one year to another. Foreign wheat does not which at one time existed in Anne compete with your wheat at all in our own markets, but only in the markets of the world, and particularly in London,

It is for your interest that the markets of the world should be made as free as possible to your products, because it is in those markets, and not here, that the competition arises. There is scarcely an article in the whole agricultural tariff schedule where your interests are or can

be promoted by high and prohibitory You need freer commerce and wider markets for what you have to sell, and low tariff duties upon what you are compelled to buy. No honeyed words, no tribute to protection, no fights of

rhetoric can change these hard facts. I do not seek to array one class of our people against another-the farmer gainst the mechanic-by speaking of the true interests of either, but I do assert that if only the selfish interests of agriculturists were to be considered there would be few tariff duties, and those extremely reasonable in amount.

The majority of the people of this country are engaged in agricultural pursuits-a fact which sometimes seems to be 'overlooked-and if the true old Demo cratic doctrine is to prevail that legisla tion should be enacted to subserve the greatest good to the greatest number of the people, then it follows that a revenue and not a prohibitory or high protective

tariff is best adapted to the country. Farmers are interested in economica government, and they have been given both by our Democratic National and State Governments. Farmers want honesty in the administration of public affairs, and that has been exemplified by President Cieveland and Governor Flow er. Farmers want sound money and : safe currency, and a Democratic National Government has given it to them by the repeal of the Sherman Silver Bullion

Purchase bill. The farmers are opposed to the vicious policy of bounties and subsidies paid from he common Treasury to encourage particular and favored interests at the expense of the whole people, and they have been substantially all abolished by the

repeal of the McKinley law. Let me tell the farmers of Livingston county that your real interests are interwoven with the success of the Democratic party in the nation and State, and ance of that great human drama "The that you will make no mistake by still continuing your allegiance to that party -the party of equal rights, the party of just taxation, the party of personal lit erty, the party of opposition to monopo-

revenue tariff. The signs of returning prosperity are visible on every hand, and if the people will adhere to the sentiments which they so emphatically expressed in 1890 and 92 the Democratic party will give them the best Government we have ever wit-

WHY TOM REED QUIT. Unable to Pitch His Speech to Gov. Mc-

Gov. McKinley's tour through Michi-

gan was spectacular in the extreme, and it did not lack in comedy. At Owosso, for instance, he spoke under the eaves of a furniture factory that is working twelve hours a day to keep up with the orders that have been pouring in since early September. At lonia two factories are running overtime, with all the men employed that can be crowded in, and a banner hung across the street just beyond where McKinley spoke, which told the multitude that "our factories are running twelve hours a day as a result of the new tariff law." Mckinley did not notice this banner until his attention was called to it right in the midst of his wail, and then he dodged behind one of the Republican party's favorite bogies-the English. He was glad, he said, that the lonia workingmen were enjoying a fair share of that prosperity which had come to the English workingmen as a result of the Democratic tariff enactment. In this city the conditions were just as inauspicious for depressed spirits, but McKinley delivered the same old speech without revision to meet the existing circumstances. One year ago all but three of the factories in this city were shut down. Every factory in town is to-day working to its utmost capacity, and several of them are working nights. And yet McKinley tried to make 4,000 people believe that the industrial situation had never been so dark. At Jackson the factories are working overtime, and yet McKinley's song was pitched in the same doleful key. All over the State factories and shops are

was singularly out of plumb. WOOL PRICES UNDER FREE WOOL,

Yool Growers get good Prices for their Clips under the New Tariff.

Wheeling, W. Va., Sept. 9.—(Special. -The good effects of the new tariff bill rapidly than even its most hearty supporters had dared to wish. The Wheeling Register, through its special correspondents in eastern Ohio, West Virginia, and western Pennsylvania, has made inquiry concerning prices and demands, and the result has been far more than satisfactory to the friends of the free wool measure.

The correspondent at Woodsfield, O. the center of a large wool-raising country, represented in Congress by A J. Pearson, whose place was jeopardized by his vote for free wool, reports that Atexander Harmon sold 10,699 pounds of wool within a week at 26 cents, and was offered as much for the remainder of his ellp. This he refused, believing he can do better before the first of the year. Clint & Pfalzgraff, also of Monroe county, have sold their wool within a week at 23 cents, it belong a less desirable clip than that of Harmon. Miller

to grade.

Several instances where wool has sold in the West Virginia panhandle at from 20 to 23 cents are reported. Most of the wool buyers are Republicans and the Howard county in Liber L. J. W., No. 50, Folio 11, etc. fairy stories they have told wool raisers

ports are received, and the election of Rogers and Wells is about as certain as anything human can be. The dissensions Arundel county have been healed, and large and enthusiastic Democratic meetings are being held in every district; the party is thoroughly organized and the usual large Democratic majority can be counted upon. Advices from the 17th Ward of Baltimore City places the Democratic majority at not less than 700, and the most conservative estimate gives Mr. Rogers 400 majority in his own county, Howard.

It therefore only remains for us o Prince George's to do our duty and the Fifth Congressional district will again have a Democratic representative in Congress.

The following is taken from the Abington Virginian: "The cattle business in Southwest Sirginia is reviving, and under sound Democratic rule this country will soon regain its lost supremacy in the cattle trade.
